Viktigt! Dörrbladets kanter aktas för slag och stötar. Kan monteras höger- eller vänsterhängd.

Important! The edges of the door leaf should be protected from knocks and impacts. Can be fitted right or left-hung.

Wichtig! Die Kanten der Tür sind vor Schlag und Stoß zu bewahren. Kann links oder rechts eingehängt werden.

Important! Prendre garde aux coups et aux chocs sur les côtés du vantail de la porte. Montage porte main droite ou porte main gauche.

Importante! Los bordes de la hoja de la puerta se deben proteger contra golpes e impactos. Puede colocarse hacia la derecha o hacia la izquierda.

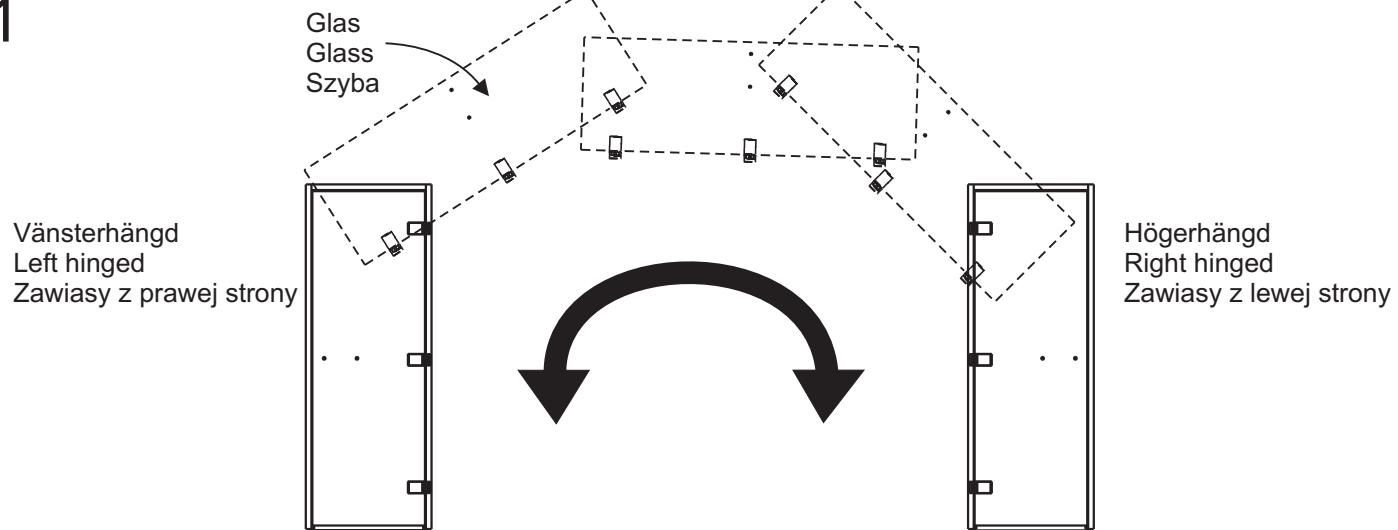

Belangrijk! De hoeken van het blad van de deur moeten worden beschermd tegen stoten en botsingen. De deur kan links- of rechtsopenend worden gemonteerd.

Importante! Gli spigoli dell'anta della porta debbono essere protetti da urti e colpi. Essa può essere montata per apertura a destra o a sinistra.

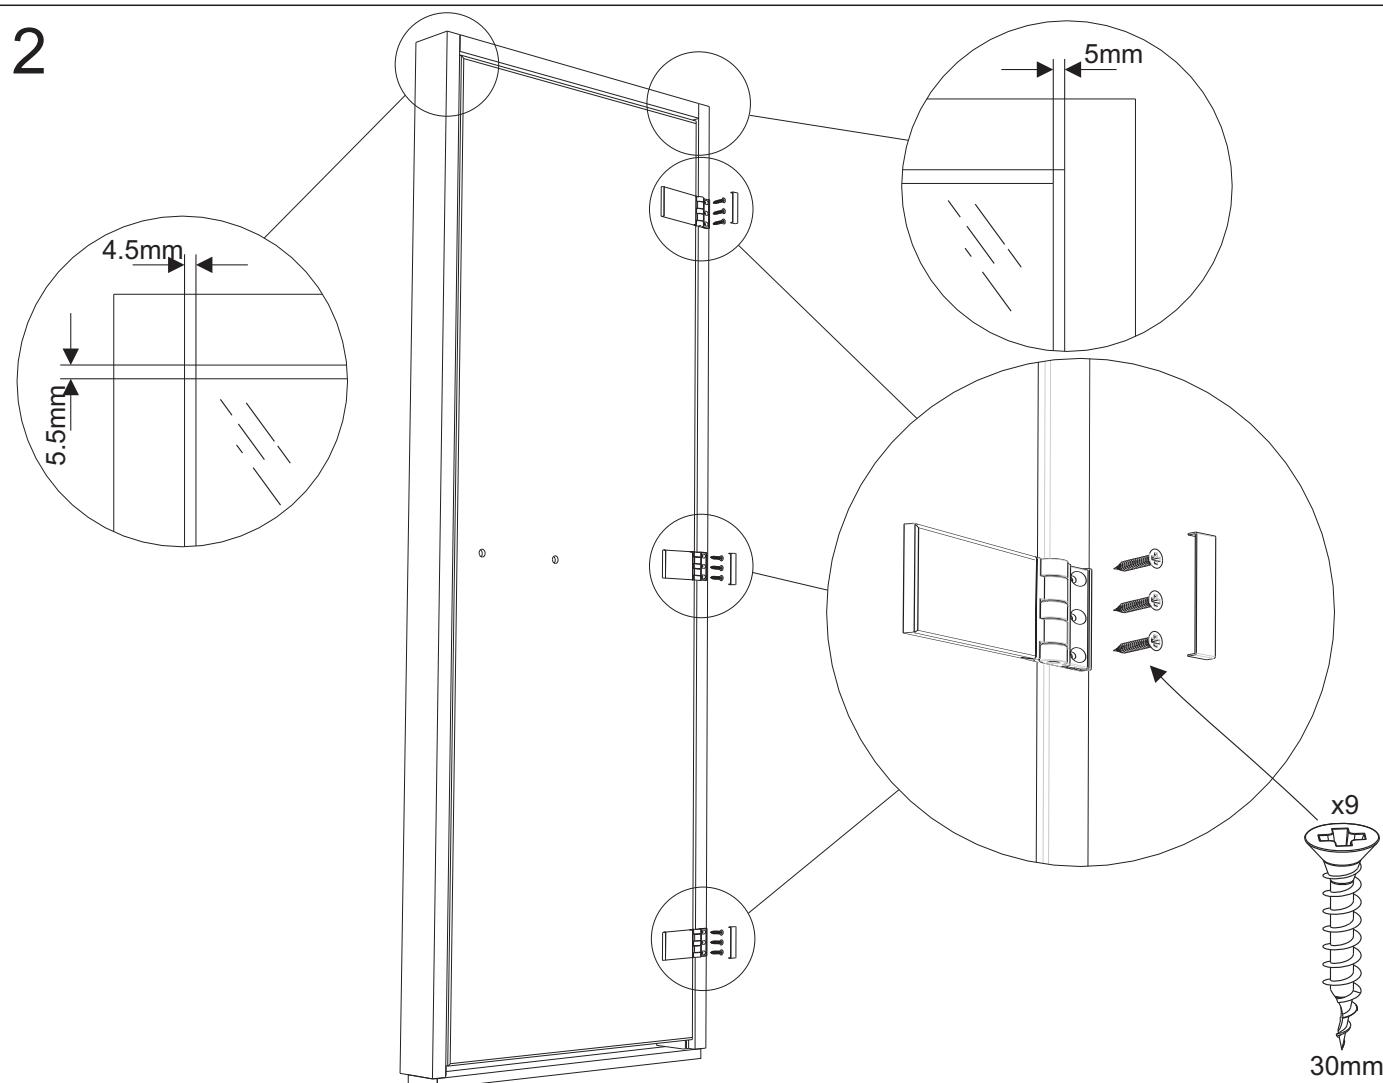

Внимание! Избегать ударов и толчков о края двери. Может подвешиваться на правую или левую сторону дверной коробки.

Uwaga! Należy unikać wszelkich naprężen i uderzeń w szybę drzwi i jej krawędzie. Drzwi mogą być montowane prawo lub lewostronne.

Montering av dörrkarm direkt mot golv kan orsaka fuktproblem. Försök att undvika detta genom något eller några av följande alternativ.

Installation of the door frame directly on the floor can cause moisture problems. Try to avoid this by doing one or more of these options.
